Dear Azar Velbinger,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2013-59-E and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling
Administrative Assistant

South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Azar Velbinger

Subject: Opposing Duke's latest rate hike for dirty energy

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

We trust energy companies to invest the money we pay into improving and updating technologies to help improve everyone's health, including the health of your employees and our children's children. The damage will come around - from our environment into our own lives and our future.

Duke needs to stop investing in dirty, old energy like coal and nuclear, and invest in more efficient, renewable technologies that your executives claim to support.

We should want the Carolinas to be leaders in more energy efficient technologies and power our homes & businesses with local wind & solar that will also employ thousands of Carolinians.

Thank you for your leadership and concern for the health of North Carolina.

Sincerely,

Helen Fisher
